## Bio

The performance art/music duo Pocket Universe comprised of Lord Mykel and His Moonfyre have been creating and performing together since 1999. Sharing a musical, theatre, and art background, they ventured into the world of music together writing, recording and performing acoustic rock tunes. In 2002 they were challenged to create some Fetish "Scene Music". The acceptance of that challenge was the genesis of *Into the Abyss*. It was then that Pocket Universe's vision and talent coalesced.

Mykel, a composer and multi-instrumentalist writes the bed tracks of the songs. Moonfyre, a lyricist explores those tracks exposing the words and melodies within. Together they collaborate as producers in their own studio and bring to life their unique style of music. They produce their albums under the independent label of their production company Fyrewind Productions Inc.
